TRU PERFORMANCE

→ PROVENTIA'S FLOW THROUGH FILTERS FOR BOBTAIL TRUs

Proventia's FTF system is the lowest cost method for making your 2003 and older TRU compliant with the CARB low emission (LETRU) regulations.

OPERATION PRINCIPLE

The Proventia TRU filter is a Flow Through Filter which collects exhaust soot in a metal filter media holding it until it can be regenerated. The filter regenerates or cleans itself under normal TRU operation without driver intervention.

APPLICATIONS

- All Thermo King bobtail TRUs from model year 1987 to 2003.

BENEFITS

- The lowest cost method of compliance with CARB regulations
- Robust design – easy installation
- No fuel penalty
- Better noise reduction than with the original muffler
- No impact on engine performance

WARRANTY

- 3 years or 1,600 hours (whichever occurs first)

INSTALLATION KIT

- FTF system
- Back Pressure Gauge
